

2023
ACADEMIC YEAR

Information for Non-EU students

Master programme in

Biotechnology for the Bio-based and Health Industry

Important: pre-application window: from December 1st 2022 to May 31st 2023

Send a pre-application to foreign.student.bbhi@uninsubria.it with the following documents:

- 1) a transcript of records of the first-level Degree Course (final mark at least 75% or 65% only if in biotechnology)
- 2) a certification of proficiency in the English language (at least B2 level)
- 3) photocopy of the passport
- 4) the Curriculum Vitae
- 5) a letter of motivation

Potentially suitable candidates based on the submitted documents will be asked to take a **MS-Teams admission interview** with a committee appointed by the Degree Program Board, aimed at verifying their preparation in the areas of basic physiology, molecular and cellular biology, microbiology, chemistry, biochemistry, and genetics.

In case of lack of knowledge in one/two of the topics, the student will be asked to fill in this gap prior to final enrollment.

A negative outcome of the interview will preclude access to the Course for the current year.

Only candidates considered eligible for admission shall start the pre-enrolment procedure through the University website within the deadline annually published on the website:

www.uninsubria.eu/programs/degree-programs/enrollment-procedures/pre-enrolment

The admission to the University program will be notified to Italian Consulates Embassies through the University System in order to issue the Visa.

Admitted students ARE NOT guaranteed any economical support. Scholarships are available for deserving students through competitive calls that are normally open in the spring period. Accommodation facilities are available in short number and on the basis of the merit.

IT IS RESPONSIBILITY OF THE APPLICANT TO KEEP HER/HIMSELF INFORMED ABOUT THE DEADLINES OF THE ABOVE-MENTIONED CALLS.
